

## “... WHAT A WORK OF ART!”

Excited to receive my 130mm Self-Centering Vise, and was not disappointed, what a work of art! Beautifully made, very precise, smooth acting. I will be ordering another!

PHIL SCHILLING | 02/17/2022

## Pull Studs

Available as singles,  
a pack of 10, or a pack of 100

- SK40/DIN, BT40

## Vises Complete Workholding Solutions – Right Out of the Box

High-quality, high-precision vises are available directly from us, on HaasTooling.com, or you can order them with your new Haas machine, so you'll be ready to go when your machine arrives.

### 150mm Manual Fixed-Jaw Vise

230mm Opening, Flange, Haas Workholding by Kurt

This is the same high-quality DX6 Kurt vise that we've all come to know and love – designed and branded specifically for Haas. Pair your machine with proven, great-quality tools and workholding.

€699

### 130mm Self-Centering Vise

130mm Opening

This Haas 130mm self-centering vise has a maximum opening of 130mm, and features a compact, low-profile design that automatically adjusts the workpiece to the center of the vise for increased precision and repeatability. The simple bolt-on jaws are easily changed or reversed, and have built-in serrated gripping surfaces.

€859

Priced from  
€359 to €399

the options for your model

Choose from the list of Tooling and  
Workholding to see the kits for your model

No searching. No Guessing. No wrong tools ordered. Order directly online, or from your HFO.

## GREAT PRODUCT

It was great to be able to buy a 6-pack of tools for a great price. When we received them, they worked just as good as any of the other brands we bought in the past. Will keep buying through Haas tooling, its been very easy and convenient.

Haas tools are top-quality tools, made by top manufacturers around the world

#### HAAS TESTED

Each Haas cutting tool has been rigorously tested on Haas machines in our own machine shop, to ensure they meet our high standards, and always deliver the performance, quality, and value that our customers demand – and deserve.

#### HAAS PROVEN

These are the same high-quality tools we use in our own state-of-the-art machine shop every day to produce high-precision machined castings and components. We developed the Haas tooling line so that our customers can enjoy the same quality, precision, and value in their shop.
